Dr. Joshua Lederberg  
Marine Biological Laboratory  
Woods Hole, Massachusetts.

Dear Dr. Lederberg:

I have read your manuscript with great pleasure and I am very glad to have it for GENETICS. Since I have been waiting for some other manuscripts before going to press with the September number, it was still possible to get your paper into this number. I must add, however, that the actual appearance of the September number will be somewhat delayed.

I have made one or two small changes in your manuscript which I hope you will not disapprove of. Further, I had to use the symbols plus and minus as <sup>subscripts</sup> ~~subscripts~~ throughout the paper. )

Beginning next week, please address me at the Department of Zoology, University of California, Berkeley 4, California.  
With kind regards,

Sincerely yours,

*Curt Stern*
